GOAL

Aspiring software engineer combining technical expertise with entrepreneurial experience. Seeking an internship where I can contribute to team-driven development while learning the collaboration, structure, and engineering practices that power successful tech companies.

EDUCATION

Cégep Gérald-Godin, Montreal, QC
Expected graduation date: May 2026

DEC Technique de l'Informatique

PROFESSIONAL EXPERIENCE

IGA Extra Déziel, Île-Perrot, QC Sept. 2021 – Feb. 2025
Multi-Department Clerk

- Assisted customers by addressing their inquiries and providing excellent service while also training new colleagues.
- Demonstrated reliability and consistency, earning the trust of my supervisors to contribute across four departments simultaneously.
- Enhanced communication skills and learned how to collaborate effectively within a team.
- Strengthened my ability to perform under pressure.

Entretien ClearView, Montreal, QC Jun. 2024 – Jan. 2026
Co-Owner / Project Manager

- Co-founded an emerging window and gutter cleaning company. The company has now partnered with a StudentWorks painting operator.
- Performed cleaning services, managed jobs, employees, equipment and engaged with clients.
- Gained a deeper understanding of business management and planning.
- Enhanced communication skills, fostered independence, and learned the importance of meeting expectations.

PROJECTS

Collaborative DVD Collection Manager (C#, Entity Framework)
- Application for managing DVD collections with user authentication and lending features.
- Integrated searching filtering and sorting functionalities to improve user experience and navigation.
- Different user types have access to specific functionalities.

Microblog (Python, JWT, React, Expo)
- Minimalist micro-blogging app featuring real-time posts.
- Implements following/unfollowing logic, filters and pagination.
- Utilized JWT to manage sessions.

SKILLS

Programming languages: Java, Python, JavaScript, C#, JSON, SQL

Software & Development Tools: Git, IntelliJ, PyCharm, VS Code, Docker, Microsoft SQL Server

Frameworks & Web Technologies: React, LinQ, Entity Framework and more

Fluent Languages: French / English / Romanian
